```scala
class ShouldBeInCache extends Serializable with Logging {
  private val rddList: mutable.HashMap[Int, Int] = mutable.HashMap()

  def insertElement(id: Int, weight: Int): Unit = {
    rddList += (id -> weight)
  }

  def contains(id: Int): Boolean = {
    rddList.contains(id)
  }

  def getWeight(id: Int): Int = {
    if (rddList.contains(id)) {
      rddList(id)
    } else {
      1
    }
  }
}
```
